

A Tuscan Connection

At Galileo Music, we trace our heritage back to Galileo Galilei - the influential Italian mathematician and astronomer who spent much of his life serving the influential Medici of Florence – a noted contributor to the arts and music.

Fifty years after Galileo, Bartolomeo Cristofori (also working for the Medici), would utilize an increased mechanical understanding to invent the world's first piano.

Today, the Galileo piano workshops are located less than 100 miles from the Florentine capital - focusing on quality woodworking and artisan skills that have made the Tuscany region world-famous. The Galileo piano combines the finest European design with today's most advanced piano technologies – a true one-of-a-kind masterpiece for your home!

Maestro II

Galileo Maestro II

Enhancing your home has never been this much fun! The Galileo Maestro II offers you the elegant style of a petite grand piano while allowing you to enjoy incredible and easy-to-use ensemble features. You'll enjoy the realistic 'feel' of an incredible variety of rhythm styles and sounds. You'll sound like a 'Maestro' as you easily add "intros", "fills" and "endings" - creating fantastic music in any musical style you desire. Record your own compositions in a flash - and store them on the built in SmartMedia Card or Floppy Disk Drives. All of these features are elegantly incorporated in a beautiful hand-crafted petite grand cabinet with lifting piano lid and roll top key cover.

The Finest Quality Craftsmanship

Galileo Pianos are made and inspired according to the great Italian woodworking tradition. These pianos are meticulously crafted by skilled artisans that create original one-of-a-kind masterpieces for your home. If you are looking for the very finest digital piano, Galileo Pianos are just what you're looking for!
